

News in English about Iraq

by Anker Petersen

09 February 2003

During the present Iraq crisis you might be interested in listening to the news in English from various stations on SW and MW, and thereby select your own news sources.

Here are the newscast frequencies I am able to hear right now in Denmark. At least on one of the frequencies the reception is good. Other members may be able to use this list, particularly in Europe.

Please note that many frequencies will change on 30 March!

0000	BBC	6195 7105 9410 11955
