DX RE MIX NEWS#925, Ivo Ivanov

CUBA Tropical Bands Conditions expected to be very good for the next few weeks as we enter into the equinoctial DX period. Cuba has 4765 kHz Radio Progreso, 5025 kHz Radio Rebelde and 5040 kHz Radio Habana Cuba, and I am still working with my colleagues at Radio Cuba to start broadcasting once again on the 90 meters Tropical Band. Suggested frequencies 3350 and 3365 kHz via an old SNIEG air cooled transmitter that we will run at around 30 kW into a NVIS dipole antenna operation, planned for between local sunset and about two o'clock in the morning local time. Reports for RHC 5040 kHz can be sent to <arnie@rhc.cu> and will be replied with a nice newly QSL printed card. 73 and DX. Arnie Coro CO2KK, host of Dxers Unlimited of RHC

SWEDEN "Relaunch for *Radio Sweden*" Starting Monday, October 5, 2015, Radio Sweden will relaunch with a new focus on all things digital: web, mobile and social media. This means that we'll be discontinuing our daily radio broadcasts and instead, we'll be providing you with a better news service online, which you can access any time. We'll still broadcast every week on Thursdays from 16:30 to 17:00. This broadcast will air again on Mondays at the same time and can be downloaded as a podcast whenever you like. It will also be available through Swedish Radio's smartphone app. With our digital relaunch, we look forward to keeping in touch with you via social media, where you can comment on our stories, share your views on interesting questions or let us know about something we may have missed. Find us on www.radiosweden.org, [@radiosweden](https://www.facebook.com/radiosweden), [instagram.com/radiosweden](https://www.instagram.com/radiosweden) or on the P2 and P6 channels and, starting October 5, on the Swedish Radio app!"
